Solitaire crystal is handcrafted to perfection as per global standards in aesthetic and design. Every cut and every sparkle redefines the spheres of clarity. Renowned globally, it makes a prominent presence of India in the entire world market of Crystals.

What started as a humble beginning in 1928, is now a vision of confidence and desire to stand tall amongst the leading crystal manufacturers.

We pioneered the introduction of opal glass in India and launched La Opala, arguably the most popular brand of tableware. Overwhelmed by its success, we stepped into the glittering world of crystal. Today we are proud to be the leading exporters of crystal to over thirty countries across the globe including USA, UK, Spain, Belgium, France, Germany, Japan, S.Korea, UAE, Kingdom of Saudi Arabia, Iran & Kuwait.

Designing the most flawless objects of beauty, our craftsman have mastered the art of mining over 24% lead with glass to create crystal that are truly matchless. They keep up with today's trends and have universal appeal. Painstakingly mouth-blown, hand-cut and shaped, each Solitaire is polished to perfection. The whole process is further honoured through time tested and stringent quality control. This precision is the outcome of true passion for perfection which goes on to make Solitaire the most preferred crystalware and the ultimate gift.

Awarded with ISO 9001-2008 and matching standard set by the Food & Drug Administration (FDA) USA. Solitaire has been continuously winning CAPEXIL Awards, EPCH Awards for exports and has received a Export House status from Govt of India. Solitaire continues its rapid march towards supremacy. Today with a large number of craftsman at work, we are continuously striving towards one goal - to carve a niche in your hearts and win over your imperial taste. As we realise that to make Solitaire the leader in its category, what matters most is your fine appreciation.
